ANTICARBONATION PAINTING

We are also pioneer in Anti-carbonation paint on the surface of Pile Caps, Piers, Pier caps, Superstructure Deck, Crash Barriers, etc. in Intertidal section & Marine section of the Main Bridge of MTHL PKG-I for M/s L&T & MTHL PKG-II for Tata Projects Ltd-Daewoo JV .

- We have a sound financial base and We are fully geared to meet the financial obligations warranted by the bigger projects.
 - From our experience list you shall observe that the company has been entrusted with the execution of projects of bigger values.
- Consistent high service levels and quality workmanship have underpinned client confidence and resulted in strong relationships with our customers.

Shreya Coating Services

MISSION STATEMENT & HSEQ POLICY.

Shreya Coating Services Is a service-oriented company operating in Protective Coatings & FIRE Proofing for various Commercial complexes, Housing Complex, Malls, Industrial and Commercial Steel Buildings.

In this business it intends to excel by offering better than the best services. Shreya Coating aim is to create value for its client through continuous improvement in cost efficiency and uncompromising quality service. To achieve this objective Shreya Coatings relies on the managerial and earnest workforce. It solemnly believes in continuous development of its workforce, and on increasingly lean on entrepreneurial organization.

Quality is Shreya Coating's most important product. Customer satisfaction is most important focus. Continuous improvement leads to higher quality, customer satisfaction, and long-term success for our company and employees.

HSEQ POLICY

We believe in “Life with zero harm” as our most valuable asset. Protecting our environment is an essential requirement for sustainable growth. Continual improvement in HSEQ performance shall be achieved through trained workforce, management commitment, positive culture and behavioral improvement. We have a commitment to comply your legal & other requirements from start to end of our organizational processes with adequate supervision and work methods in line with customer requirements and to achieve customer satisfaction.

Shreya Coating Services

HEALTH, SAFETY & ENVIRONMENT AND QUALITY OUR APPROACH TOWARDS THE PRINCIPLES OF QUALITY MANAGEMENT SYSTEM

Customer Focus

All the procedures of this Integrated Management System applied at our organization are designed to accurately understand and meet the customer needs and to enhance the company to exceed customer's expectations.

Leadership

All Management Members were involved in developing Organization's Integrated Management system. This is considered as the base foundation for meeting the QUALITY policy and objectives. A Corporate QUALITY Representative (Management Representative) is appointed who will be responsible for implementing, improving and updating the system continuously.

Involvement of People

Employees at all levels were involved in developing and implementing the system. Also, all employees are clearly aware that improvement ideas in current systems and operations are always appreciated and required as a main requirement of this international standard.

Process Approach

All activities at our organization are treated as processes, the out put of any process will be the input for the next one, and interrelations between these processes are clearly clarified. Processes inside this Management System are made based on the consideration of 7Ms – Men, Machine, Method, Material, Milieu, Measurement and Money. This calls for identifying internal customers, identifying the needs, in the same way as done for external customers.

System Approach to Management

Our Company aims at defining the System by determining and developing the interdependencies and interrelationship of the processes. A systematic approach of this integrated management system is laid and implemented inside the Organization.

Continual Improvement

Policy, Objectives, Internal Audits, Corrective/Preventive Actions, Management Reviews and the integration of the management systems will be dedicated to organization's continual improvement.
